

A REGULATORY GUIDE
FOR COMMERCIALIZING
AGRI-BUSINESSES

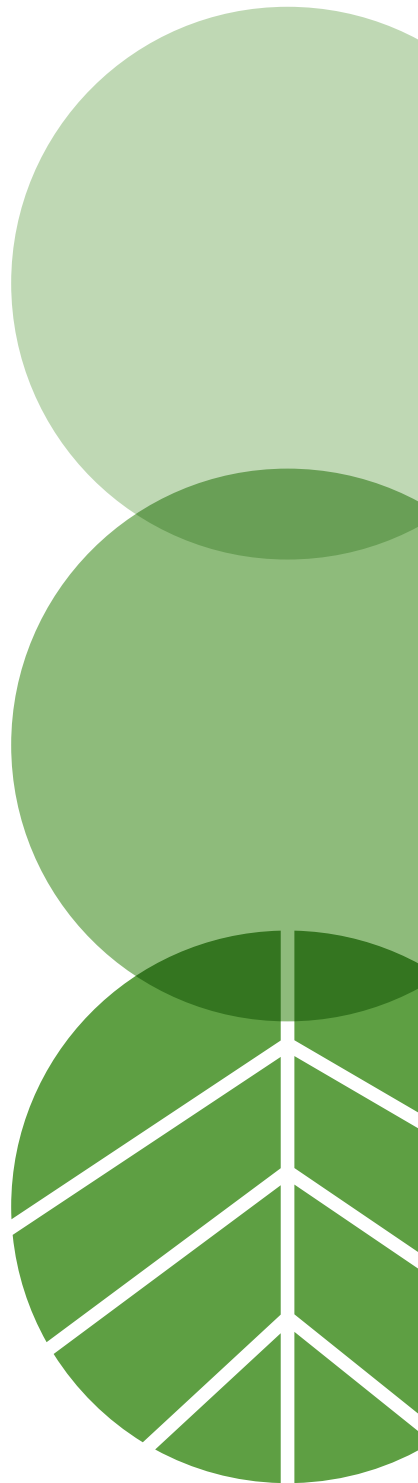

A photograph of a young green seedling with two leaves and a thin stem, growing out of dark, textured soil. The background is blurred, showing other similar seedlings.

**Simple.
Cost-effective.
Faster.**

Federal, provincial, and municipal regulations govern almost every aspect of agri-business in the agriculture, agri-food and bio-based markets. From production to packaging, labelling, marketing claims, and more — the sooner you understand your obligations, the faster you can get your product to market.

With the sheer number of regulations, policies, and standards administered by different departments, ministries, and agencies, navigating those requirements can be challenging.

Simplify your regulatory strategy with the AgRegKit, your guide to Canada's agri-business regulations.

The AgRegKit Your regulatory roadmap

Take advantage of the **AgRegKit** at any stage in your business journey to pinpoint relevant regulations and establish your compliance strategy.

We've gathered the pertinent federal rules, regulations and standards that cover the Canadian agri-business landscape and put them into one extensive database, reviewed by industry experts for accuracy.

Intuitive compliance questionnaire

The AgRegKit questionnaire uses your answers to identify specific regulatory requirements at each step of your commercialization process — from concept to launch and beyond.

A comprehensive index of regulatory compliances

Our searchable directory makes it easy to locate definitive resources, by providing links to official legislation, regulations, governing bodies and more.

Sector-specific workbooks

User-friendly educational workbooks help you quickly grasp the regulatory landscape. You'll discover glossaries of relevant terms, summaries of legislation and checklists outlining common requirements and compliances.

Always up to date

We notify you as regulations change, so you can be confident you're working with the latest information.

The information you need – all in one place

The **AgRegKit** helps you quickly identify which regulations apply to your business, what they mean, which ones you comply with and which ones you still need to work on.

For entrepreneurs:

Pave a smooth path to market

By mapping out your regulatory strategy with the **AgRegKit**, you save both time and money on the road to commercialization.

For corporations:

Expedite product expansion

The **AgRegKit** makes it easy to keep projects on track and collaborate between different departments, locations, and franchises throughout product development.

For consultants:

Speed up assessments

Enhance your service offering with all the features of the AgRegKit. Increase productivity and facilitate communication with your clients — we've done the legwork for you.

For incubators, tech transfer offices and government organizations:

Add to your suite of services

The AgRegKit is the perfect tool to educate your clients and help them succeed — faster.
